Stakeholder engagement table

EXPLORE PHASE

REASONS FOR STAKEHOLDER ENGAGEMENT

Consider the following potential reasons for stakeholder engagement and continue/clafiry the lists to suit your ecosystem’s needs. Think of industry, government, research, and community stakeholders.

Quadruple helix group	Information	Tailoring solutions	Systemic transition	Risk management	Risk of not engaging stakeholders
Government		Municipality/ city planning – infrastructure, policies, incentives		Regulatory compliance Supply of trained workforce in the future	
Research	Wider perspectives (environmental and social sustainability) of system transition		Circular & digital solutions		Unintended consequences of solutions or in supply chains: biodiversity, pollution or social sustainability
Community		User needs Societal acceptance		Testing: solutions that will be adopted in local context	
Industry	B2B need data		Adoption of solutions Circularity – partners, data, research, digital solutions		No partners for systemic transition
